

**PhD position in Microbiology /Aquaculture at University of Gothenburg, Sweden**

Fully funded PhD position (4 years) at the University of Gothenburg, Sweden.

**Closing date February 1, 2019**

**Contact: Dr. Alyssa Joyce - [alyssa.joyce@marine.gu.se](mailto:alyssa.joyce@marine.gu.se)**

Seeking a suitable candidate with background in marine physiology and/or relevant aquaculture experience with either fish or invertebrates. The position requires excellent English proficiency, but does not require EU or Swedish residency, and is thus open to all international applicants.

Candidates must be willing to travel frequently and for extended periods internationally (primarily Europe, Australia and Asia). As the projects involve considerable travel, candidates without prior international living experience will not be considered.

Start date is approximately May 15<sup>th</sup>, 2019 (flexible). Salary is paid in Swedish kroner and is around €34,000 (approximately \$43,000 USD after tax, depends on exchange rates) with excellent benefits including health coverage, paid vacation and travel. Please find more details about the position at:
