

Ocean Carbon & Biogeochemistry (OCB) Webinar

Filling the gaps in observation-based estimates
of air–sea carbon fluxes

May 5, 2020

Website/agenda: <https://tinyurl.com/ybevr4oh>

OCB is a network of scientists working across disciplines to understand the ocean's role in the global carbon cycle and how marine ecosystems and biogeochemical cycles are responding to environmental change.

Ground Rules

- Speakers/panelists stay on time – panelists turn off video during talks (and if bandwidth-challenged)
- Save audience questions for discussion at the end of each block of talks
- **Speakers/panelists** ask Qs using the **CHAT** function
- **Attendees** are muted, ask questions using the **Q&A** function (access via the “...” on bottom of screen)
- Optional call-in (for phone audio):
 - Dial 1-415-655-0001 (US Toll)
 - Outside US: <https://tinyurl.com/yb8cfpst>
 - Enter meeting code: **474 172 252**
